The Fouts Fire 3000 Gallon Tanker is engineered for departments that require maximum water capacity with dependable performance and minimal maintenance. Built on a rugged Kenworth T-480 chassis and powered by a 450 HP PACCAR PX-9 engine, this tanker delivers exceptional hauling power and reliability. Its 3000-gallon poly tank and 1000 GPM Hale MBP pump ensure fast, efficient water delivery, even in rural or hard-to-reach areas. The 3000 Gallon Tanker combines functionality, safety, and durability for any firefighting operation.
